### NATIVE TROOPS.

It is clear that most of the volunteers now in the field would gladly hear of or ders being Issued for them to be muster-They are tired of the service Now that peace has been restored (though peopled with inferior races, creates the necessity for a great military establish-Soldlers we must have in large It seems quite certain that, at its com-

ing session, Congress will authorize the Increase of the regular army, but, unless special inducements are offered to retruits, it is unlikely many will come forward.

To our mind, there appear but two ways In which we can coax into the ranks of Uncle Sam enough men to garrison the military posts in this country, and furnish bolice for duty in our various "Colonics." One way is to make the pay of the enlisted men much larger than it is now; the other is to enlist thousands of the natives of Hawaii, Cuba, Porto Rico, and the Philippines.

Our army is already said to be the most expensive on earth. Officers and men average more pay than do those of any other country. in some other lands the officers of the higher grades are paid much more than we pay ours; but we un derstand that, taking the cost per capita, ours is the costliest army in existence. Now, to have to go a step farther, and but the pay still higher, would be to unpose a proportionally greater burden upon the country do? Really, for the time be-

The example of Great Britain is often Quoted as showing that native troops may be successfully used. Yes; and the time may come when we, too, may make usc of them; but that time is not yet. We

know too little about our Colonial peoples. The great Sepoy rebellion, which cost England so many precious lives, was caused by the ignorance, or stupidity, of the British authorities in despising social and religious prejudices. It taught them

a great lesson; may we never have need of such a one! After we have made the acquaintance

of our darkskinned "subjects" it may be possible that we can rely uopn them for military service; but, for the nonce, w shall have to depend upon our own men

In short, Congress will have to make the regular-army service so attractive that sufficient recruits will come to it. Congress will have to offer to recruits liberal inducements in pay, promotion, and pensions. It will, also, have to make the term of enlistment rather short. When all these things have been done we may count upon securing the soldiers we need. And we may, likewise, count upon many of those soldiers staying in the "Colonies" when their terms of en-Matment are out. That that result will follow we feel quite sure. Indeed, many men may be induced to enlist "to see the country"-just as many, in times gone by, West there were so many profitable openof frequent occurrence, and that may be a trouble our regiments in the "Colonies" may have to reckon with, though, we

The curfew, as an institution, is thought by some to have had its origin in England in the reign of William I., but ever in those days it was not popular, and the stringency of its requirements was relaxed thirty-five years later. There was some excuse for it when the poorlylighted streets and thoroughfares were infested with highwaymen and thieves. Moreover, in the crowded cities of the present day, the rule would be absolutely impracticable during the summer season, and its enforcement would entail a prodi gious amount of labor on the part of the

The Post should inform the Doctor that the misdoings of the blacks brought about a condition of affairs when every man went armed: that when excitement was at its height the blacks, not the whites, fired the first shot, and thus became responsible for the blood that was shed. The wonder is not that a collision co curred on the 11th, but that after seeing so much misrule, the whites of Wilmington were able to restrain their anger so long as they did.

The snake show now going on in New York is proving a great success, and each day's programme brings a surprise of one sort or another to the spectators. Indeed, wherever snake develops a disposition to allow itself to be fondled, there is some woman who is willing to take it into her hands. A Notable Wedding in Lexington-Other Lexington Matters.

LEXINGTON, VA., November 17 .-

(Special.)-The marriage of Miss ott Shipp, youngest daughter of General Scott Shipp, Superintendent of the Virginia Military Institute, and Mr. Benjamin Huger, of Charleston, S. C., was solemnized this evening at \$20 o'clock at the Grace-Memorial Episeopal church, Rev. Robert J. McBryde, D. D., pastor of the church, officiating. The church was beautifully decorated with potted palms and plants, cut flowers, and ferns. From the massive banks of green foliage shone the mellow glow of lighted wax candles, which gave a soft radiance to the fairy-like picture as presented to the vast audience, while the impressive marriage services were being performed. The organ was presided over by Mrs. M. D. Edmunds. The bride, who is one of Lexington's loviest daughters—a beautiful brunette, with large, blue-gray cyes, capable of great expression, regular features, and of stately and queenly carriage—was gowned in a magnificent creation of ivory satin trimmed with duchess lace and orange blossoms, and wore a tulle veil caught up with orange blossoms and pearls. Mr. Huger is a graduate of the Virginia Military Institute, of the class of 1883, and a descendant of the famous Huger family of South Carolina. He is now a prominent cotton broker of Charleston. The maid of honor, the bride's sister, Mrs. N. Beveriy Tucker, was gowned in green satin with pearl ornaments, and carried "La France" roses. The bridesmalds were Miss Bena Harrison, of Leesburg Miss Mary Forbes, of Warrenton; Miss Gertrude Howard, of Lynchburg, and Miss Esten Duval, of Lexington, all of whom were gowned alike in becoming costumes of white organdie over green satin, with green satin, sahes, and carried "La France" roses—and Miss Rosa Tucker and Miss Mary Preston Graham, both of Lexington, Va., gowned in white organdie over white satin, with white satin sashes. ### QUARANTINE AGAINST FEVER.

Cordon of Protection-Sanitation in Cuba and Around It.

WASHINGTON, November 17 .- The yellow-fever problem has been receiving earnest attention of late from the authorities here, particularly from the Ma- | to unite with rine Hospital service and the War De-partment, owing to the important new re-lations established with Cuba and other fever localities to the south of us, and also because of the reoccurrence of the disease within this country during the

disease within this country during the last summer.

The purpose is to prepare during the coming winter months for such an efficient cordon of protection around the country that the chances of a reintroduction of the disease will be reduced to a minimum, while at the same time the points of infection in Cuba and elsewhere will be so improved by sanitation and guarded by quarantine that the main sources of danger will be removed.

FLOATING DISINFECTION.

Already the Marine Hospital service

FLOATING DISINFECTION.

Aiready the Marine Hospital service has begun its work of establishing a cordon of quarantine around Cuba. A large floating disinfecting plant is in operation in Habana harbor, and a similar floating disinfecting plant is at Santiago, although not yet in operation. These are to take charge of the shipping coming to American ports and put it through such thorough disinfection that all fever germs will be removed. Similar floating plants will be established at all other large commercial points, and such rigid rules put in force that the shipping will be free from danger before it is out of Cuban waters, although the most rigid quarantine at American ports will be continued.

FULLER AUTHORITY NEEDED.

FULLER AUTHORITY NEEDED. Surgeon-General Wyman is going ahead with this floating disinfection, although lish quarantine outside of the country. Owing to this weakness of the law, strong efforts will be made to have Congress pass what is known as the Caffery bill, granting additional quarantine pow-

Besides the quarantine to against the escape of diseases from the island, the authorities are now considering plans for the internal sanitation of the island on an extensive scale.
